

VARSHITH KUMAR A

AI Engineer & Full Stack Developer

Hubballi, Karnataka | +91 7022756962 | varshithkumar815@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [Live Project \(AURA Lite\)](#)

PROFESSIONAL SUMMARY

AI Engineer and Full Stack Developer with hands-on experience in Generative AI, Agentic AI, FastAPI, RAG systems, and cloud-native deployments. Built and deployed production-ready intelligent systems including AURA Lite (live on Google Cloud Run), AI chatbots, farmer advisory agents, and NL-to-SQL assistants using Python, Gemini API, PostgreSQL, and Google Cloud Platform. Passionate about scalable backend architecture, AI agent orchestration, and solving real-world problems through intelligent automation.

EDUCATION

KLE Technological University — Hubballi, Karnataka

Master of Computer Applications (MCA) | Expected August 2027

Relevant Coursework: Generative AI, Machine Learning, Cloud Computing, Data Structures, Algorithms, Software Engineering

KEY PROJECTS

AURA Lite – AI Agricultural Advisory Platform | 2026 [Live →](#)

- Built and deployed a live production AI system on Google Cloud Run using Docker and Artifact Registry
- Developed weather-based crop advisory agent, NL-to-SQL query tool, and Gemini-powered text summarizer using FastAPI
- Integrated PostgreSQL with secure psycopg2 connectivity and built a glassmorphism HTML/CSS/JS frontend

AI-Based Plant Disease Prediction System | 2023

- Trained CNN-based image classification models achieving 85%+ accuracy across 20+ disease categories
- Integrated a predictive analytics and recommendation engine for personalized farmer treatment solutions

AI Chatbot Using Gemini API | 2024

- Developed an intelligent conversational chatbot with real-time response generation and contextual dialogue management

TECHNICAL SKILLS

AI/ML & Frameworks: Python, Generative AI, Agentic AI, RAG Models, Fine-tuning, Google Gemini API, Vertex AI, TensorFlow

Backend & Database: FastAPI, Flask, PostgreSQL, SQL Query Optimization, REST APIs, psycopg2, JSON Orchestration

DevOps & Cloud: Docker, Google Cloud Platform (Cloud Run, Compute Engine, Artifact Registry), Git, GitHub, Linux, CI/CD

Frontend: HTML, CSS, JavaScript, Responsive Design, Glassmorphism UI

ACHIEVEMENTS & CERTIFICATIONS

- Completed Google Cloud Skills Boost labs with verified [Google Skills Profile](#)
- Participated in OpenAI Academy x NxtWave Regional Buildathon – Karnataka
- Participated in Google Cloud Agentic AI Day
- Built and deployed production-ready AI systems for agriculture, education, and data intelligence
- Completed specialized training in Generative AI, Agentic AI systems, and cloud-based AI deployments
